

HIGH CYCLE VIBRATORS

Designed for productivity and safety, the Minnich high-cycle concrete vibrator thrives in low-slump concrete applications such as bridge pillars and large walls. Minnich high-cycle concrete vibrators feature a 4-prong grounded twist lock plug with Sealtite® cover for positive water-tight connections. They also feature a leak-proof switch pod for greater safety and longer switch life. Hose and cable options are available to meet exact handling needs.

FEATURES

2 Plugs

Wheel Kit

SPECIFICATIONS

	M178	M258
Vibrator Head Diameter	1.875	2.625”
Vibrator Head Length	19”	18”
CF At 6,000 VPM	256 FT / LBS	750 FT / LBS
CF At 8,000 VPM	455 FT / LBS	1100 FT / LBS
CF At 10,800 VPM	784 FT / LBS	2050 FT / LBS
Amplitude (Peak To Peak)	. 82”	.112”
Radius Of Influence	6” - 8”	9” - 12”
Weight Of Unit	41 LBS	44 LBS
Power Requirements	230 V - 3 HP - 180 CY	230 V - 3 PH - 180 CY
