

MULTI-PURPOSE SPRAYER

MULTI-PURPOSE SPRAYER

Minnich's Multi-Purpose sprayer is designed to elevate job site productivity and reduce labor costs. The sprayer mounts to 50-gallon drums and totes up to 550 gallons, offering exceptional flexibility for diverse applications. The Multi-Purpose Sprayer's straightforward setup and operation make it an indispensable tool for applying a variety of release agents, water-based sealants, and curing compounds to concrete surfaces. Built with durable components, it ensures long-lasting reliability, consistent performance, and even coverage.
